

On clicking Trending (no need for login)

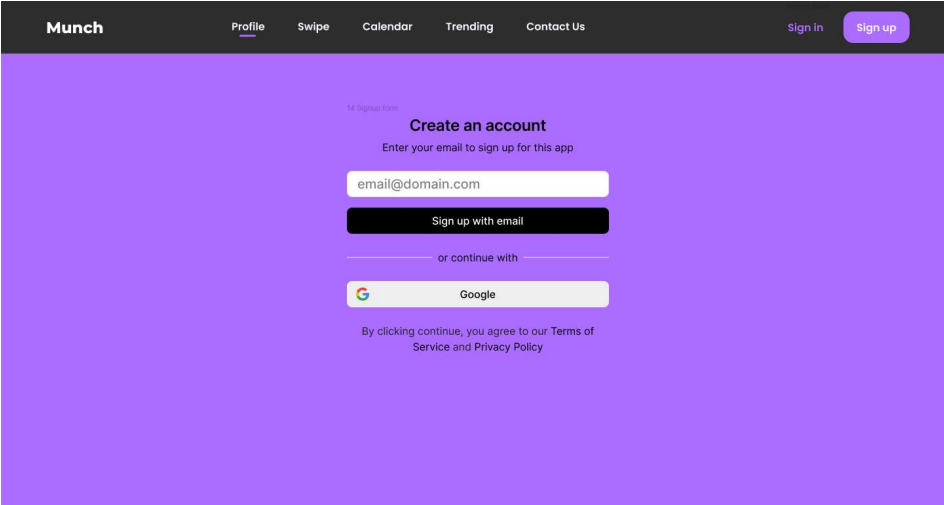

On Launch / Home / Profile

On click Swipe / Swipe Now / Sign in / Sign up / Calendar

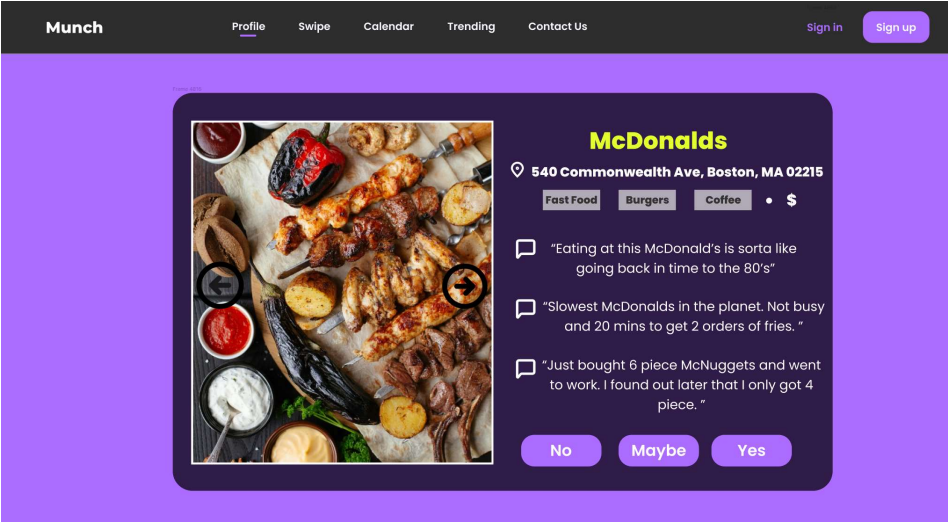

After Login / Signup, if clicked on sign in / sign up go back to Home page

After Login and clicking on Calendar, only shows calendar without the prompt

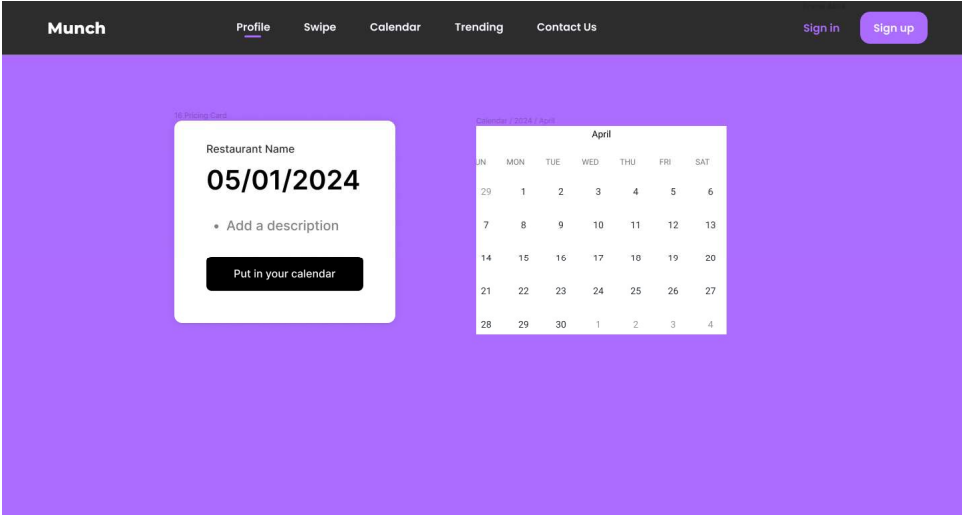

After Login / Signup -> Swipe

On clicking No -> keep scrolling through restaurants

On clicking Yes -> Preload information and get taken to calendar tab

After creating the event, keep being on the Calendar page
